

# PRACTICAL SUPPORT

The Jay Fund is able to **BE THERE** for families by supporting the treatment facilities that provide medical care to children diagnosed with cancer. The Jay Fund's focus is to make the time spent in the hospital or clinic more positive and to improve the entire family's overall cancer journey.

## THE JAY FUND AIMS TO IMPROVE QUALITY OF LIFE BY SPONSORING:

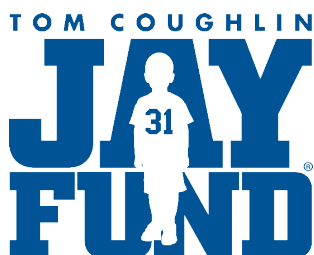

### ► HOSPITAL-BASED FOOD LOCKER/PANTRY

The Jay Fund supports families facing pediatric cancer by providing access to nutritious food through hospital-based food lockers at St. Joseph's University Medical Center and Newark Beth Israel Medical Center. These lockers offer families the opportunity to select healthy, fresh items at no cost—helping ease the stress of putting meals on the table during an already challenging time.

### ► HOSPITAL AND CLINIC EQUIPMENT

### ► ELECTRONIC ENTERTAINMENT EQUIPMENT FOR PATIENTS
